EDUCATION

Course Studying

BSc Honours degree in Information Technology specializing Information Technology (SLIIT)

2021 - 2025

Courses Studied

Software Quality Assurance Professional Program (SLIIT) - 2024

Higher National Diploma in Information Technology (SLIIT) - 2023

Certificate in Digital Marketing (SLTC) - 2021

ABOUT ME

As a third-year undergraduate with six months of Software Engineering internship experience, specializing in MERN stack development and React.js, as well as possessing knowledge in Quality Assurance from SLIIT coursework, I am actively seeking a Quality Assurance role. I am proficient in WordPress development in addition to my other skills and am keen to contribute to maintaining high software quality standards in any capacity required.

WORK EXPERIENCE

Intern Software Engineer   July 2023 - January 2024
Sensus Hub | Boralesgamuwa

Joined as an intern software engineer with expertise in MERN stack and React.js for frontend development. Skilled in utilizing Mantine, Material libraries, custom CSS, and Bootstrap to enhance design in ERP projects. Proficient in WordPress development, creating and modifying themes, resolving responsive issues, implementing SEO best practices, and managing plugins with hands-on experience in PHP. Experienced in troubleshooting and maintaining websites for optimal functionality.

PROJECTS

SwagLabs-Automation Using Selenium with TestNG

I have hands-on experience in implementing automated testing solutions using Selenium and TestNG for the Swaglabs system. This demonstrates my proficiency in software testing and automation, highlighting my ability to utilize industry-standard tools effectively.

E-COURSES

Programming in Python (UoM) - 2022

SKILLS

- HTML & CSS
- MS 365
- Selenium
- Kotlin
- Java
- Java Script
- React
- MERN Stack
- SQL
- Python
- TestNG
- C++
- Github
- OOP Concepts
- Bootstrap 5
- WordPress

SOFT SKILLS

- Communication Skills
- Team Working
- Leadership
- Problem-Solving
- Time Management
- Attention to Detail

Tuition Management System - MERN STACK

In a university group project, our team created a student management and performance system with the MERN stack. My tasks involved coding CRUD operations for student data and creating an automatic password generation feature.
